* The school district has the responsibility under the federal law to serve students who are Limited English Proficient and need English instructional services. Given this responsibility the school district has the right to ask for the information it needs to identify English Language Learners (ELLs). As part of the responsibility to locate and identify ELLs, the school district may conduct screenings or ask for related information about students who are already enrolled in the school as well as from students who enroll in the school district in the future.

School Medication Policy

The law which regulates the administration of medication in the school is the same as that applied to hospitals and other institutions. When possible, medications should be administered at home.

Prescription Medication: Written permission from Physician and Parent are required for your child to receive medication at school. All medications must be in a prescription container labeled by the pharmacy or in the original container labeled by the manufacturer. It is the parent’s responsibility to provide refills of the medication throughout the school year. Students are not allowed to carry the medication to school to give to the nurse. An adult would need to bring the medication to the office. (Appropriate form **signed by a doctor** must be submitted.)

Over-the-Counter Medication: If it is necessary for your child to receive over-the-counter medication (such as Tylenol, Advil, Benedryl) during the school day, the District does NOT supply these medications; they must be provided by the parent in the original container. (Appropriate form **signed by the parent** must be submitted.)

Asthma Medication (including hand-held inhalers): If it is necessary for your child to receive asthma medication during the school day, the District does NOT supply these medications; they must be provided by the physician in the original container. (Appropriate form **signed by a doctor** must be submitted.)

All medications must be stored and dispensed from the nurse’s office. These same requirements also apply to any over-the-counter medication needed during school hours.

Physicals and Dental Exams

**Children entering Kindergarten, Grades 6 and 11 are required to have a physical examination.
 Children entering Kindergarten, Grades 3 and 7 are required to have a dental examination.**

These procedures may be done either by your family doctor and dentist or by the school doctor and dentist, under the school program.

If you prefer to have your family doctor or dentist complete these procedures, special forms can be obtained at the school. These procedures must be done in the summer prior to entering school or during the school year.

However, these procedures will be done at school if the private physician or dental form is not completed and returned to the school by the time our school physician and dentist are available to us.

If my child needs immediate medical attention and the school is unable to contact the parent/guardian, Emergency Medical Technicians (EMT's) have my permission to take my child to the emergency room of a local hospital for treatment.

I have read the above information and understand my responsibilities.

I understand and agree that an alternative bus arrangement for childcare purposes depends on (1) the student may not travel outside the school's attendance area; (2) the site of the childcare provider must be on an existing bus route [there will be no re-routing of buses]; (3) the student must ride the alternate bus five days per week; (4) the assignment of students to an alternate bus is contingent on space availability at the time of the request.

Further, I agree that if the childcare provider is closed due to inclement weather and/or emergency situations, I am responsible for transportation to and/or from school. Additionally, I have read and understand the procedures listed on the reverse side of this form.

Procedures and Conditions for Requesting Alternate Bus Assignment for Childcare Purposes

In order to have students transported to an alternate site for childcare purposes, it is necessary to complete and submit to the school office the **Request for Alternate Bus Assignment due to childcare Arrangements** application. This application must be submitted a minimum of one week prior to when transportation is requested to start.

Approval of the request is contingent on the signature and approval of the building principal and the Director of Administrative Services. The request will be granted only if both the principal and Director of Administrative Services agree and if the conditions listed below are followed and agreed to by the parent / guardian.

1. Same Bus

The student must ride the same bus in the morning all five days from the same location. The student must ride the same bus in the afternoon all five days to the same location. Example: A student may be picked up at a childcare provider on Bus 12 in the morning and taken home on Bus 15 from school to home.

2. Existing Bus Route

The location of the childcare provider must be on an existing bus route and, if possible, close to an existing bus stop. There will be no re-routing of a bus to accommodate a childcare request.

3. Space Availability

The assignment of a student to an alternate bus is contingent on space availability. If the bus route requested is full at the time of the request, the request will be denied. The district will not move stops from one bus to another or re-route buses to accommodate a childcare request.

4. Same Attendance Area

A student may not travel outside their attendance area to go to a childcare provider and receive alternate transportation services by the district. Even though some of the buses may cross attendance boundaries, students will not be eligible for alternate transportation if it is outside their assigned attendance area.

5. Emergency Closings

If the childcare provider's facility is closed due to emergency or inclement weather, parents are responsible for providing transportation to and from school. Students may not use their home school assignment in the event of an emergency. If the Childcare Program closes early, parents must pick up their child(ren) at the regular school dismissal time.

6. Yearly Request

The request for alternate transportation must be for the entire school year. If you change a childcare provider during the school year, you must submit another request for consideration. Up to two (2) changes may be made after the initial request. If subsequent requests are denied, parents must transport their child(ren) to school or the child(ren) must ride the transportation provided from their regular bus assignment. The alternate transportation form must be completed at the beginning of each school year.
